SUMMARY OF THE REASONS FOR DECISION:

The video recording entitled *The Return Of Tori Welles* is classified as:
Objectionable except if the availability of the publication is restricted to persons who have attained the age of 18 years.

This classification is due to the manner in which the publication deals with matters of sex, in the form of explicitly depicted sexual activity that is intended to sexually arouse the viewer.

The video recording's main component is a feature that has previously been examined by the Classification Office in DVD format. The DVD entitled *The Return Of Tori Welles* (OFLC No. 200924) was classified as Objectionable except if the availability of the publication is restricted to persons who have attained the age of 18 years, with the descriptive note 'Contains explicit sex scenes'. This decision was registered 23 July 2002. The feature that appears on the current video recording has been verified as being substantially the same as the DVD version.

The video recording contains a different collection of additional components to the feature than on the DVD. In addition to the feature there are three notices and eight trailers for other sexually explicit video recordings. However, the manner in which matters of sex are treated within these extra components is comparable to the feature, and there is no reason to give the video recording version a different classification to the DVD.
